F.lli Frattini[®]

A tradition of tenacity and ingeniousness defines F.lli Frattini, established in 1958 in San Maurizio D'Opaglio, Novara, Italy.

Founded by three brothers, Pier Luigi, Benito and Giuseppino, supported and assisted by their father Maurizio, the company went through 60 years of Italian enterprises history. High quality standards, technological and aesthetical innovation blended to the big passion of who knows very well the ins and outs of its products. New ways and new innovative products have been created thanks to the huge love for its own job, which sometimes asks some adequate sacrifices. F.lli Frattini choices have been always very clear and precise, such as the pride and the obstinacy to manufacture only "Made in Italy" products.

In 2018 F.lli Frattini celebrated its 60 years of activity, but this has been only a starting point toward new challenges that Frattini family is ready to deal with.

Oasis was founded in Polcenigo, near Venice, in 1908. The company is owned by the Quaia family, who has now been leading it with dedication and passion for four generations. Oasis is a century-old family-run business that combines brave choices, tradition and a strong identity.

Oasis makes a wide range of furniture collections for the Home and the Bathroom and a range called 'Contract', to meet the residential and professional needs. Oasis products are entirely made in Italy.

The traditional approach of the company, the eye for quality and fine materials, the use of modern technology are the elements allowing for maximum flexibility in Oasis production and make it stand out in Italy and abroad. Today, the company is present across over 25 countries. Discover a 'journey' which explores the origins of the family that founded the company over a century ago, taking it from the small carpentry workshop of its beginnings to the international brand that it is today.
